

Phase 01 - Cleanse

Milky Lotion Cleanser

- **Recommended for dry/sensitive to normal skin**
- **Fragrance-free & non-comedogenic / Paraben-free**
- **Gently cleanses the skin, removing dirt, oil, makeup and dead skin cells without unnecessarily disrupting the skin's natural protective barrier the way traditional cleansers and soaps do**
- **Retail Size: 170 ml. (6.0 fl. oz.) / Travel Series: 15 ml. (0.5 fl. oz.)**
- **Professional Series: 453 ml. (16 fl. oz.)**

Product Description

The cleansing process is important not only because it removes impurities, but also because it prepares the skin to receive treatment and absorb the active ingredients of leave-on products. Epionce cleansers are especially effective in enhancing the benefits of Phase 03 and Phase 04 products because they gently remove skin impurities without negatively affecting the intercellular lipids and cells that form our skin's protective barrier. Milky Lotion Cleanser is a lightweight, rinse-off, milky lotion formula specifically designed for use on normal to dry skin, which tends to be more easily irritated by harsh traditional cleansing products.

How does it work?

Milky Lotion Cleanser gently cleanses the skin by dissolving and lifting dirt, oil, makeup and dead skin cells, without unnecessarily disrupting the skin's natural protective barrier. Because it has an emulsifying effect, it is particularly effective at dissolving the fatty substances contained in makeup products, gently removing makeup more easily than other cleansers. Even though Milky Lotion Cleanser is a rinse-off product, it leaves a thin layer of conditioners on the surface of the skin, making it especially effective for people with dry or sensitive skin. It contains a delicate cleansing agent that nourishes as it cleanses, leaving the skin feeling clean, refreshed and conditioned.

Milky Lotion Cleanser contains a combination of both the EpiA Complex™ and EpiB Complex™ in a synergistic formulation that:

- Prevents the conditions that may lead to the formation of inflammatory factors associated with unnecessary dryness and irritation caused by the cleansing process.
- Protects the skin's barrier during the cleansing process, enhancing the benefits of the Phase 03 and Phase 04 products.
- Does not cause barrier disruption like most conventional soaps and cleansers.

Ingredients

Water (Aqua), C12-15 Alkyl Benzoate, Petrolatum, Butylene Glycol, Glycerin, Glyceryl Stearate, PEG-100 Stearate, Cetearyl Alcohol, Pyrus Malus (Apple) Fruit Extract, Caprylyl Glycol, Cetearyl Glucoside, Citrus Aurantium Dulcis (Orange) Fruit Extract, Ethylhexylglycerin, Hexylene Glycol, Hydroxyethylcellulose, Lavandula Angustifolia (Lavender) Flower Extract, Linalool, Limonene, Phenoxyethanol, Phoenix Dactylifera (Date) Fruit Extract, Zinc Pyrithione. Patent-Pending. All Rights Reserved.

Phase 01 - Cleanse

Gentle Foaming Cleanser

- **Recommended for normal or combination to oily skin**
- **Fragrance-free & non-comedogenic / Parben-free**
- **Removes dirt, oil and makeup while loosening dead skin cells without disrupting the skin's natural protective barrier**
- **Retail Size: 170 ml. (6.0 fl. oz.) / Travel Series: 15 ml. (0.5 fl. oz.)**
- **Professional Series: 453 ml. (16 fl. oz.)**

Product Description

The cleansing process is important not only because it removes impurities, but also because it prepares the skin to receive treatment and absorb the active ingredients of leave-on products. Epionce cleansers are especially effective at enhancing the benefits of the Phase 03 and Phase 04 products because they gently remove skin impurities without negatively affecting the intercellular lipids and cells that form our skin's protective barrier. Gentle Foaming Cleanser is a lightweight, rinse-off foaming formula specifically designed for use on normal-to-oily and combination skin.

How does it work?

Gentle Foaming Cleanser gently cleanses the skin by emulsifying and removing dirt, oil, makeup and dead skin cells, without unnecessarily disrupting the skin's natural protective barrier like traditional soaps and cleansers do. Gentle Foaming Cleanser is effective for most skin types, because it removes skin impurities and makeup, without leaving the skin tight or stripped of its protective natural lipids.

Gentle Foaming Cleanser contains EpiA Complex™ and EpiB Complex™ in an elegant formulation that:

- Prevents the conditions that may lead to the formation of inflammatory factors associated with unnecessary dryness and irritation caused by the cleansing process.
- Protects the skin's barrier during the cleansing process, enhancing the benefits of the Phase 03 and Phase 04 products.
- Does not cause barrier disruption like other conventional soaps and cleansers.

Ingredients

Water (Aqua), Sodium Cocoamphoacetate, Sodium Lauroyl Sarcosinate, Glycerin, Lauryl Glucoside, Glycol Distearate, Sodium Cocoyl Glutamate, Sodium Lauryl Glucose Carboxylate, Althaea Officinalis (Marsh Mallow) Root Extract, Butylene Glycol, Caprylyl Glycol, Citrus Aurantium Dulcis (Orange) Fruit Extract, Ethylhexylglycerin, Hexylene Glycol, Lavandula Angustifolia (Lavender) Flower Extract, Linalool, Limonene, Phenoxyethanol, Phoenix Dactylifera (Date) Fruit Extract, PEG-150 Distearate, Salix Alba (Willow) Bark Extract. Patent-Pending. All Rights Reserved.

Phase 01 - Cleanse

Lytic Gel Cleanser

- **Recommended for combination to oily & problem skin**
- **Fragrance-free & non-comedogenic / Paraben-free**
- **Gently and effectively removes dirt, oil and makeup while loosening dead skin cells and opening clogged pores**
- **Retail Size: 170 ml. (6.0 fl. oz.) / Travel Series: 15 ml. (0.5 fl. oz.)**
- **Professional Series: 453 ml. (16 fl. oz.)**

Product Description

The cleansing process is important not only because it removes impurities, but also because it prepares the skin to receive treatment and absorb the active ingredients of leave-on products. Lytic Gel Cleanser is an active foaming cleanser that gently and effectively removes dirt, oil, makeup and dead skin cells, without unnecessarily disrupting the skin's natural protective barrier like traditional cleansers and soaps. It contains salicylate derivatives, which help to kill bacteria associated with inflammatory acne. Although it is an active cleansing pre-treatment product, it does not over-strip the skin. Instead, it leaves the skin clean, refreshed and ready to obtain the best results from the treatment products.

How does it work?

Lytic Gel Cleanser effectively opens clogged pores and removes accumulated dead skin cells responsible for scaling in some common skin conditions such as psoriasis and dermatitis. Lytic Gel Cleanser contains EpiK Complex™ in an elegant formulation that:

- Opens clogged pores and prevents the formation of open and closed comedones (blackheads and whiteheads).
- Helps to eliminate bacteria associated with inflammatory skin disorders, such as acne.
- Provides a cooling effect, relieving symptoms of inflammatory acne.
- Does not cause skin barrier disruption like other conventional cleansers and soaps, thus preventing further irritation.

Ingredients

Water (Aqua), Sodium Cocoamphoacetate, Sodium Lauroyl Sarcosinate, Glycerin, Lauryl Glucoside, Sodium Cocoyl Glutamate, Sodium Lauryl Glucose Carboxylate, Althaea Officinalis (Marsh Mallow) Root Extract, Butylene Glycol, Caprylyl Glycol, Citrus Aurantium Dulcis (Orange) Fruit Extract, Coco-Glucoside, Ethylhexylglycerin, Glyceryl Oleate, Glyceryl Stearate, Hexylene Glycol, Lavandula Angustifolia (Lavender) Flower Extract, Lilialool, Limonene, Menthol, PEG-150 Distearate, Phenoxyethanol, Phoenix Dactylifera (Date) Fruit Extract, SalixAlba (Willow) Bark Extract, Zinc Pyrithione. Patent-Pending. All Rights Reserved.

Phase 02 - Prepare

Re-Balancing Clarifier

- Recommended for normal to dry/sensitive skin
- Fragrance and alcohol-free; non-comedogenic / Paraben-free
- This mild, re-balancing moisture clarifier has been designed to balance the skin's normal pH and complete the cleansing process by gently removing any traces of dirt, oil and makeup
- Retail Size: 170 ml. (6.0 fl. oz.)

Product Description

Clarifying the skin is an important step in any skincare program because it helps restore the normal pH of the skin's acid mantle following the cleansing process. The Epionce Re-Balancing Clarifier provides an essential moisturization boost because it contains humectants that help restore moisture to skin dehydrated by cleansing, thus preparing the skin for treatment with Phase 03 and Phase 04 products. This product balances the moisture levels throughout the face, especially benefiting dry and normal-to-combination skin types.

How does it work?

Re-Balancing Clarifier is designed to complete the cleansing process by gently dissolving and removing any traces of dirt, make-up and oils. It also balances the skin's natural pH, provides a moisturization boost by infusing a highly concentrated blend of botanical extracts and humectants by buffering the alkalization effects of cleansers. This product is especially formulated for normal-to-dry, combination and sensitive skin.

Ingredients

Water (Aqua), Butylene Glycol, Glycerin, PEG-40 Hydrogenated Castor Oil, Althaea Officinalis (Marsh Mallow) Root Extract, Capryloyl Glycine, Cucumis Sativus (Cucumber) Fruit Extract, Disodium EDTA, Menthol, Phenoxyethanol, Phoenix Dactylifera (Date) Fruit Extract, Red 40, Salix Alba (Willow) Bark Extract, Triethanolamine, Vitis Vinifera (Grape) Seed Extract, Yellow 5. Patent-Pending. All Rights Reserved.

Phase 02 - Prepare

Purifying Lytic Toner

- **Recommended for combination/oily and problem skin**
- **Fragrance-free & non-comedogenic / Paraben-free**
- **This formula is designed to remove excess oils, traces of makeup and other impurities while controlling excessive oiliness/shine, tightening pores and conditioning the skin**
- **Retail Size: 170 ml. (6.0 fl. oz.)**

Product Description

Using a toner is an important step in any skincare program because it completes the cleansing process by effectively removing excess oils, traces of makeup and other impurities while preparing the skin for treatment with Phase 03 and Phase 04 products. The Epionce Purifying Lytic Toner is an active, non-stripping, soothing formulation, especially formulated for combination, oily and problem skin, with mild astringent activity to help reduce and control excessive oiliness/shine while tightening pores and conditioning the skin.

How does it work?

Purifying Lytic Toner is designed to complete the cleansing process and prepare the skin for treatment by removing excess oil, dirt, makeup and other impurities from the skin while maintaining the skin's natural pH. Purifying Lytic Toner has combined comedolytic and keratolytic action that: Gently penetrates inside the follicles to help remove dead skin cells, dirt, oil and traces of makeup that can clog pores and cause breakouts; removes and controls excess oil and shine while helping maintain the skin's natural pH; controls bacterial and fungal activity on the skin, reducing irritation and susceptibility to breakouts; and enhances the effectiveness of treatment products by optimizing the action of active ingredients.

Ingredients

Water (Aqua), Alcohol, Butylene Glycol, Althaea Officinalis (Marsh Mallow) Root Extract, Blue 1, Capryloyl Glycine, Citrus Aurantium Dulcis (Orange) Fruit Extract, Cucumis Sativus (Cucumber) Fruit Extract, Disodium EDTA, Glycerin, Lavandula Angustifolia (Lavender) Extract, Linalool, Limonene, Menthol, PEG-40 Hydrogenated Castor Oil, Salicylic Acid, Salix Alba (Willow) Bark Extract, Triethanolamine, Vitis Vinifera (Grape) Seed Extract, Yellow 5. Patent-Pending. All Rights Reserved.

Phase 03 - Treat

Lite Lytic

- **Recommended for sensitive/dry and delicate skin, including elderly and infant skin**
- **Fragrance-free & non-comedogenic / Paraben-free**
- **This gentle treatment product effectively eliminates skin imperfections and uneven skin texture by loosening and removing dead skin cells. It also unclogs pores while reducing redness and scaly skin. When used in combination with a Phase 04 product, the Lite Lytic provides the most effective treatment for premature skin aging**
- **Retail Size: 170 ml. (6.0 fl. oz.) / Travel Series: 15 ml. (0.5 fl. oz.)**
- **Professional Series: 453 ml. (16 fl. oz.)**

Product Description

Lite Lytic is a gentle, active therapeutic treatment product designed for individuals with sensitive skin to treat uneven skin texture, sunspots, redness, acne-prone skin, or certain common skin conditions such as rosacea and both adult and neonatal acne. This product effectively removes dead skin cells while unclogging pores, reducing bumps, blackheads, whiteheads and other blemishes such as small cysts. It is also very effective in reducing the irritation and inflammation associated with skin conditions such as rosacea, commonly found in individuals with redness-prone skin. Formulated for sensitive skin, including elderly and infant skin, the Lite Lytic smoothes the contour of the skin and makes pores and scars less noticeable. When used in combination with the Renewal products, the Lite Lytic provides the most effective treatment for premature skin aging by providing controlled keratolytic action that helps improve skin texture and radiance.

How does it work?

All of the Epionce Lytic products contain EpiK complex™, which penetrates into the follicles to perform a keratolytic function, helping to kill bacteria, unclog pores and reduce inflammation, redness, and scaling associated with certain skin disorders. Because it is specifically formulated for sensitive skin types, such as those found in elderly patients and infants with neonatal acne, the Lite Lytic has the most gentle keratolytic effect.

Lite Lytic contains a combination of both EpiA Complex™ and EpiK Complex™ in a synergistic formulation that:

- Loosens and removes dead skin cells without vigorously exfoliating and causing skin barrier disruption, which exacerbates inflammatory skin conditions.
- Delivers a ratio-specific blend of salicylate derivatives and natural keratolytic compounds specifically designed to clean pores, remove blackheads, whiteheads and blemishes.
- Helps prevent the formation and action of chronic inflammatory factors, the common underlying cause of many skin conditions and diseases, such as rosacea and adult/neonatal acne.

Ingredients

Water (Aqua), Butylene Glycol, Salix Alba (Willow) Bark Extract, PPG-2 Myristyl Ether Propionate, Limnanthes Alba (Meadowfoam) Seed Oil, Cyclopentasiloxane, Petrolatum, Phoenix Dactylifera (Date) Fruit Extract, Cyclohexasiloxane, Atelocollagen, Azelaic Acid, Bisabolol, C13-14 Isoparaffin, Caprylyl Glycol, Cetearyl Alcohol, Citrus Aurantium Dulcis (Orange) Fruit Extract, Emulsifying Wax, Ethylhexylglycerin, Glycerin, Glyceryl Stearate, Hexylene Glycol, Laureth-7, Lavandula Angustifolia (Lavender) Flower Extract, Lecithin, Linalool, Limonene, (Linum Usitatissimum (Linseed) Seed Oil, PEG-100 Stearate, Phenoxyethanol, Polyacrylamide, Salicylic Acid, Sodium Chondroitin Sulfate, Sodium Hyaluronate, Sodium Hydroxide, Xanthan Gum, Zinc Pyrithione. Patent Pending. All Rights Reserved.

Phase 03 - Treat

Lytic

- **Recommended for normal, combination-to-oily and acne-prone skin**
- **Fragrance-free & non-comedogenic / Paraben-free**
- **This treatment product effectively eliminates skin imperfections and uneven skin texture by loosening and removing dead skin cells. It also unclogs pores, while reducing redness and scaly skin. When used in combination with a Phase 04 product, the Lytic Lotion also provides the most effective treatment for premature skin aging**
- **Retail Size: 170 ml. (6.0 fl. oz.) / Travel Series: 15 ml. (0.5 fl. oz.)**
- **Professional Series: 453 ml. (16 fl. oz.)**

Product Description

Lytic is a cosmetically elegant formulation specially designed for people with normal-to-combination, oily and acne-prone skin, or certain common skin conditions, such as acne and dermatitis (eczema). It effectively cleanses pores, reducing bumps, blackheads, whiteheads and other blemishes such as small cysts. It also decreases the redness and irritation of the skin and removes scales, smoothing the contour of the skin and making pores and scars less noticeable. When used in combination with the Renewal products, the Lytic provides the most effective treatment for premature skin aging by providing controlled keratolytic action that helps improve skin texture and radiance.

How does it work?

All of the Epionce Lytic products contain EpiK Complex™, which penetrates into the follicles to perform a keratolytic function, helping to unclog pores and reduce inflammation, redness, and scaling associated with some common skin disorders. Because the Lytic contains an optimal concentration of keratolytic components, it is recommended for individuals of any age, for most skin types, suffering from acne, dermatitis, and certain other skin conditions associated with abnormal cell maturation and exfoliation.

Lytic contains a combination of both EpiA Complex™ and EpiK Complex™ in a synergistic formulation that:

- Prevents the action and formation of chronic inflammatory factors, the common cause underlying many skin conditions and diseases, such as: acne and dermatitis (eczema).
- Delivers a ratio-specific blend of salicylate derivatives and natural botanical keratolytic compounds designed to optimally clean pores, and remove blackheads, whiteheads and small cysts.
- Removes dead skin cells without vigorously exfoliating and causing skin barrier disruption, which may exacerbate inflammatory skin conditions.

Ingredients

Active Ingredient: Salicylic Acid 2.0%

Other ingredients: Water (Aqua) Salix Alba (Willow) Bark Extract, Butylene Glycol, PPG-2 Myristyl Ether Propionate, Polyacrylamide, Limnanthes Alba (Meadowfoam) Seed Oil, Glycerin, Petrolatum, C13-14 Isoparaffin, Phoenix Dactylifera (Date) Fruit Extract, Allantoin, Atelocollagen, Azelaic Acid, Linum Usitatissimum (Linseed) Seed Oil, Bisabolol, Caprylyl Glycol, Cetearyl Alcohol, Citrus Aurantium Dulcis (Orange) Fruit Extract, Cyclohexasiloxane, Cyclopentasiloxane, Cymbopogon Schoenanthus Extract, Emulsifying Wax, Ethylhexylglycerin, Glyceryl Stearate, Hexylene Glycol, Laureth-7, Lavandula Angustifolia (Lavender) Flower Extract, Lecithin, PEG-100 Stearate, Phenoxyethanol, Sodium Chondroitin Sulfate, Sodium Hydroxide, Xanthan Gum, Zinc Pyrithione. Patent Pending. All Rights Reserved.

Phase 03 - Treat

Lytic Plus

- Recommended for very oily & acne-prone or problem skin
- Fragrance-free & non-comedogenic / Paraben-free
- Formulated specifically to treat oily and problem teenage skin by unclogging and cleansing pores, eliminating bumps, blackheads, whiteheads, and other blemishes such as small cysts, while reducing and removing dead skin cells (keratolytic effect)
- Retail Size: 170 ml. (6.0 fl. oz.) / Travel Series: 15 ml. (0.5 fl. oz.)
- Professional Series: 453 ml. (16 fl. oz.)

Product description

Lytic Plus is a cosmetically elegant, maximum-strength active therapeutic product specially designed for people with oily and acne-prone skin, and/or certain common skin conditions, such as acne, psoriasis and dermatitis. This maximum-strength formulation is specifically intended to treat oily and problem teenage skin by unclogging and cleansing pores, reducing bumps, blackheads, whiteheads and other blemishes such as small cysts. It also decreases redness and irritation of the skin and removes scales, smoothing the contour of the skin and making pores and scars less noticeable.

How does it work?

All of the Epionce Lytic products contain EpiK Complex™, which penetrates into the follicles to perform a keratolytic function, helping to kill acne-causing bacteria, reducing inflammation, redness, and scaling associated with some of the above common skin disorders. Because the Lytic Plus contains the most intensive blend of keratolytic components, it is particularly recommended for teenagers suffering from acne, as well as individuals afflicted with very oily, acne-prone, or problem skin. It is also recommended for patients afflicted with psoriasis and dermatitis.

Lytic Plus contains a combination of both EpiA Complex™ and EpiK Complex™ in a synergistic formulation that:

- Prevents the action and development of chronic inflammatory factors, on of the underlying causes of many skin conditions and diseases, such as acne, psoriasis, dermatitis, and eczema.
- Delivers a maximum-strength blend of salicylate derivatives and natural keratolytic compounds designed to optimally clean pores, remove blackheads, whiteheads and small cysts.
- Removes dead skin cells without vigorously exfoliating and causing skin barrier disruption, which exacerbates inflammatory skin conditions.

Ingredients

Active Ingredient: Salicylic Acid 3.0%

Other Ingredients: Water (Aqua), Butylene Glycol, Salix Alba (Willow) Bark Extract, PPG-2 Myristyl Ether Propionate, Limnanthes Alba (Meadowfoam) Seed Oil, Polyacrylamide, Phoenix Dactylifera (Date) Fruit Extract, Cyclopentasiloxane, Allantoin, Atelocollagen, Azelaic Acid, Bisabolol, C13-14 Isoparaffin, Caprylyl Glycol, Cetearyl Alcohol, Citrus Aurantium Dulcis (Orange) Fruit Extract, Cyclohexasiloxane, Emulsifying Wax, Ethylhexylglycerin, Glycerin, Glyceryl Stearate, Hexylene Glycol, Laureth-7, Lavandula Angustifolia (Lavender) Flower Extract, Lecithin, Linalool, Limonene, Linum Usitatissimum (Linseed) Seed Oil, Menthol, PEG-100 Stearate, Petrolatum, Phenoxyethanol, Sodium Chondroitin Sulfate, Sodium Hydroxide, Xanthan Gum, Zinc Pyrithione.

Patent Pending. All Rights Reserved.

Phase 03 - Treat

Enriched Firming Mask

- **Suitable for all skin types**
- **Fragrance-free & non-comedogenic / Paraben-free**
- **Powerful botanical extracts and humectants enhance and strengthen skin barrier and elastin skin support matrix.**
- **Retail Size: 90 ml. (2.5 fl. oz.)**
- **Professional Series: 453 ml. (16 fl. oz.)**

Product Description

This highly emollient, intensely hydrating mask stimulates the skin with a proprietary blend of lipids, antioxidant-containing botanical extracts and powerful humectants designed to enhance and strengthen the natural protective barrier while providing increased firmness and elasticity to the collagen and elastin skin support matrix. By including a ratio-specific combination of naturally derived willow bark salicylates and essential fatty acids, this formulation helps to effectively reverse and prevent the destructive action of inflammatory factors in the skin while imparting comedolytic and mild keratolytic benefits.

How does it work?

This intensely hydrating mask is designed to rapidly repair, strengthen and fortify the skin barrier, increasing elasticity and firmness. This mask has highly emollient properties that maximize skin wellness with a proprietary blend of key neurotransmitter and barrier lipids, antioxidant botanical extracts and potent, powerful humectants. Ideal for immediate post-procedure soothing or as a weekly treatment.

Enriched Firming Mask:

- Maximally stimulates the skin's function
- Contains a proprietary blend of lipid precursors, antioxidants and humectants that rapidly strengthen the skin's natural protective barrier
- Immediately increases elasticity and firmness with rapid production of the acetylcholine by providing its precursor lipids.
- Helps reduce and prevent the activation and release of inflammatory factors.

Ingredients

Water (Aqua), Limnanthes Alba (Meadowfoam) Seed Oil, Petrolatum, Butylene Glycol, Glycerin, Cetyl Alcohol, Butyrospermum Parkii (Shea Butter), Laureth-23, Phoenix Dactylifera (Date) Fruit Extract, Hydrogenated Polyisobutene, Salix Alba (Willow) Bark Extract, Carthamus Tinctorius (Safflower) Seed Oil, C10-30 Cholesterol/Lanosterol Esters, Ceteth-20, Cetearyl Glucoside, Acrylates/C10-30 Alkyl Acrylate Crosspolymer, Blue 1, Cetyl Esters, Citrus Aurantium Dulcis (Orange) Fruit Extract, Disodium EDTA, Glyceryl Stearate, Hydroxylated Lecithin, Lavandula Angustifolia (Lavender) Flower Extract, Linalool, Limonene, Menthol, PEG-100 Sterate, Persea Gratissima (Avocado) Oil Unsaponifiables, Phenoxethanol, PPG-2 Myristyl Ether Propionate, Sodium Hyaluronate, Triethanolamine.

Phase 04 – Renew & Fortify

Renewal Facial Cream

- **Recommended for dry/sensitive to normal skin**
- **Fragrance-free & non-comedogenic / Paraben-free**
- **This rich, luxurious moisturizing cream reverses the visible signs of aging while simultaneously preventing future skin damage**
- **According to a recent independent controlled clinical trial, an Epionce regimen including Renewal Facial Cream was numerically superior in 5 of 6 photoaging parameters when compared to prescription Renova®**
- **Retail Size: 50 g. (1.7 oz.) / Travel Series: 15 ml. (0.5 fl. oz.)**
- **Professional Series: 453 g. (16 oz.)**

Product Description

Renewal Facial Cream, like all of the Renewal products, is much more than an effective moisturizing cream; it is an advanced formulation that provides effective reparative stimulation and moisturization that penetrates deep into the skin cell layers, strengthening the natural protective barrier, while preventing the destructive effects of environmental aggressors that can lead to premature skin aging. In addition to providing the degree of moisturization required for your skin type (dry/sensitive to normal), it works by providing the necessary support your skin needs to achieve optimum function, thus restoring its healthy and youthful glow.

How Does It Work?

Renewal Facial Cream contains a combination of both EpiA Complex™ and EpiB Complex™ in a synergistic formulation that:

- Blocks the formation and action of chronic inflammatory factors, which result in the development of visible signs of skin aging.
- Repairs and strengthens the skin's protective barrier, our natural defense against environmental aggressors that damage the skin and accelerate the aging process.
- Prevents the destructive action of pro-oxidative elements.
- Provides outstanding moisturization and skin conditioning.

Ingredients

Water (Aqua), Petrolatum, Butylene Glycol, Glycerin, Carthamus Tinctorius (Safflower) Seed Oil, Limnanthes Alba (Meadowfoam) Seed Oil, Cyclopentasiloxane, Pyrus Malus (Apple) Fruit Extract, Phoenix Dactylifera (Date) Fruit Extract, PPG-2 Myristyl Ether Propionate, Beeswax, C10-30 Cholesterol/Lanosterol Esters, Polyacrylamide, Linum Usitatissimum (Linseed) Seed Oil, Cyclohexasiloxane, Bisabolol, C13-14 Isoparaffin, Caprylyl Glycol, Cetyl Alcohol, Citrus Aurantium Dulcis (Orange) Fruit Extract, Cyclomethicone, Dimethiconol, Emulsifying Wax, Ethylhexylglycerin, Glyceryl Stearate, Hexylene Glycol, Laureth-7, Lavandula Angustifolia (Lavender) Flower Extract, Linalool, Limonene, Magnesium Stearate, Malic Acid, Manganese Glycerophosphate, Manganese Salicylate, PEG-100 Stearate, Persea Gratissima (Avocado) Oil Unsaponifiables, Phenoxyethanol, Phytosphingosine, Rosa Canina Fruit Oil, Sodium Hyaluronate, Zinc Pyrithione, Zinc Stearate. Patent Pending. All Rights Reserved.

Phase 04 – Renew & Fortify

Renewal Facial Lotion

- **Recommended for normal to combination skin**
- **Fragrance-free & non-comedogenic / Paraben-Free**
- **This light, quick-absorbing hydrating lotion provides effective reparative stimulation and moisturization, reversing the visible signs of aging while simultaneously preventing future skin damage**
- **Retail Size: 50 g. (1.7 oz.) / Travel Series: 15 ml. (0.5 fl. oz.)**
- **Professional Series: 453 ml. (16 fl. oz.)**

Product Description

Renewal Facial Lotion, like all of the Renewal products, is much more than an effective moisturizing lotion; it is an advanced light-weight formulation that provides effective reparative stimulation and moisturization that penetrates deep into the skin cell layers, strengthening the natural protective barrier, while preventing the destructive effects of environmental aggressors that can lead to premature skin aging. In addition to providing the degree of moisturization required for your skin type, it works by providing the necessary support your skin needs to achieve optimum function, thus restoring its healthy and youthful glow.

How does it work?

Renewal Facial Lotion contains a combination of both EpiA Complex™ and EpiB Complex™ in a synergistic formulation that:

Phase 04 – Renew & Fortify

Renewal Eye Cream

- **Recommended for all skin types**
- **Fragrance-free & non-comedogenic / Paraben-Free**
- **This highly emollient eye product reverses the visible signs of aging while simultaneously preventing future skin damage of the delicate eye area**
- **Soft-Focus Technology emits, scatters and diffuses visible light, making skin imperfections around the eye area less noticeable**
- **Retail Size: 18 g. (0.7 oz.)**

Product Description

The skin around the eyes is particularly delicate and vulnerable. It is often considered to be an index of aging because it is especially prone to develop fine lines and wrinkles. In addition, the skin in this area is thinner than in other parts of the face, a feature that becomes more pronounced as we age, leading to the appearance of dark circles, puffiness, and more prominent blood vessels on the surface of the skin. Epionce Renewal Eye Cream works by providing the necessary support your skin needs to achieve optimum function, thus restoring its healthy and youthful glow.

How does it work?

Renewal Eye Cream contains a combination of EpiA Complex™, EpiB Complex™ and Soft-Focus Technology in a synergistic formulation created for the eye area that:

- Blocks the action and formation of inflammatory factors responsible for causing the development of visual signs of premature skin aging particular to the eye area, including: fine lines, wrinkles, excessive dryness, and loss of muscle tone and elasticity.
- Fortifies and strengthens the natural protective barrier of the delicate skin around the eyes, protecting the skin from environmental insults. Renewal Eye Cream also promotes regeneration of skin cells, reversing the process of skin thinning responsible for the appearance of broken capillaries on the skin's surface.
- Reflects and diffuses visible light, illuminating the dark areas around the eye. This creates a unique optical effect that dramatically reduces the appearance of dark circles, puffiness, fine lines, wrinkles, and skin imperfections.

Ingredients

Water (Aqua), Petrolatum, Glycerin, Phenyl Trimethicone, Butylene Glycol, Carthamus Tinctorius (Safflower) Seed Oil, Limnanthes Alba (Meadowfoam) Seed Oil, Emulsifying Wax, Cetearyl Alcohol, Steareth-21, Beeswax, C10-30 Cholesterol/Lanosterol Esters, Linum Usitatissimum (Linseed) Seed Oil, Bisabolol, C13-14 Isoparaffin, Caprylyl Glycol, Citrus Aurantium Dulcis (Orange) Fruit Extract, Cyclohexasiloxane, Cyclopentasiloxane, Disodium EDTA, Ethylhexylglycerin, Hexylene Glycol, Laureth-7, Lavandula Angustifolia (Lavender) Flower Extract, Linalool, Limonene, Magnesium Stearate, Malic Acid, Manganese Glycerophosphate, Persea Gratissima (Avocado) Oil Unsaponifiables, Phenoxyethanol, Phoenix Dactylifera (Date) Fruit Extract, Phytosphingosine, Polyacrylamide, Polydodecanamideaminium Triazadiphenylethanesulfonate, Polyvinylalcohol Crosspolymer, Pyrus Malus (Apple) Fruit Extract, Rosa Canina Fruit Oil, Sodium Hyaluronate, Steareth-2, Zinc Pyrithione, Zinc Stearate. Patent Pending. All Rights Reserved.

Phase 04 – Renew & Fortify

Intensive Nourishing Cream

- **Recommended for very dry, photoaged skin**
- **Fragrance-free & non-comedogenic / Paraben-free**
- **This luxurious, rich, highly emollient and moisturizing facial cream has been designed to provide maximum hydration to dry skin. It delivers the most effective therapy in correcting and reversing the damage of premature skin aging while simultaneously preventing future skin damage**
- **Retail Size: 50 g. (1.7 oz.)**

Product Description

Intensive Nourishing Cream is an advanced formulation that provides maximum hydration to ultra dry, photodamaged facial skin. It delivers the most effective therapy in correcting and reversing the damage of extrinsic skin aging. This product contains the highest levels of active complexes formulated to stimulate skin rejuvenation, correcting and preventing environmental damage while clinically improving skin firmness, elasticity, texture and radiance. Intensive Nourishing Cream works by providing the necessary support your skin needs to achieve optimum function, thus restoring its healthy and youthful glow.

How does it work?

Intensive Nourishing Cream provides the highest concentrations of both the EpiA Complex™ and EpiB Complex™ available in a facial product. Additional formulation details:

- Contains a combination of botanically-derived Barrier Lipid Generators to maximally rebuild and fortify the skin's natural protective barrier.
- Patented Vectorization Technology target-delivers azelaic and ursolic acids to effectively regenerate and strengthen the collagen and elastin matrix while visibly reducing hyperpigmentation.
- Proprietary Soft-Focus Technology emits, scatters and diffuses visible light, creating a unique optical effect that dramatically reduces the appearance of fine lines, wrinkles and skin imperfections.

Ingredients

Water (Aqua), Butylene Glycol, Petrolatum, Cyclopentasiloxane, Glycerin, Limnanthes Alba (Meadowfoam) Seed Oil, Carthamus Tinctorius (Safflower) Seed Oil, Hydrogenated Polyisobutene, PPG-2 Myristyl Ether Propionate, Hydrolyzed Potato Protein, Linum Usitatissimum (Linseed) Seed Oil, Emulsifying Wax, Cyclohexasiloxane, Glyceryl Stearate, PEG-100 Stearate, Atelocollagen, Azelaic Acid, C10-30 Cholesterol/Lanosterol Esters, C12-20 Alkyl Glucoside, C13-14 Isoparaffin, C14-22 Alcohols, C30-45 Alkyl Cetearyl Dimethicone Crosspolymer, Caprylyl Glycol, Cetyl Alcohol, Citrus Aurantium Dulcis (Orange) Fruit Extract, Cyclomethicone, Dimethiconol, Ethylhexylglycerin, Hexylene Glycol, Hydrolyzed Yeast Protein, Laureth-7, Lavandula Angustifolia (Lavender) Flower Extract, Lecithin, Linalool, Limonene, Magnesium Stearate, Malic Acid, Manganese Glycerophosphate, Magnesium Salicylate, Persea Gratissima (Avocado) Oil Unsaponifiables, Phenoxyethanol, Phoenix Dactylifera (Date) Fruit Extract, Phytosphingosine, Polyacrylamide, Pyrus Malus (Apple) Fruit Extract, Rosa Canina Fruit Oil, Sodium Chondroitin Sulfate, Ursolic Acid, Xanthan Gum, Zinc Pyrithione, Zinc Stearate. Patent Pending. All Rights Reserved.

Phase 04 – Renew & Fortify

Renewal Enriched Body Lotion

- **Recommended for all skin types**
- **Fragrance-free & non-comedogenic / Paraben-free**
- **This highly emollient and conditioning body product reverses the visible signs of aging on all parts of the body while simultaneously preventing future skin damage**
- **Retail Size: 230 ml. (8.0 fl. oz.)**
- **Professional Series: 453 ml. (16 fl. oz.)**

Product Description

Renewal Enriched Body Lotion, like all of the Renewal products, goes far beyond being an excellent moisturizing lotion; it is an advanced formulation that prevents environmentally caused skin damage while reversing the visible signs of aging. In addition to providing a high degree of moisturization required for the skin of your body (non-facial), it also makes the skin firmer and smoother. Common body care procedures, such as various hair removal techniques, result in severe skin exfoliation, making your skin more susceptible to barrier disruption. This leaves you vulnerable to develop many common skin conditions or exacerbate an existing disorder.

The skin on your body has less oil glands and more sweat glands than on your face, so it is particularly vulnerable to dryness and natural protective barrier disruption. Although clothes offer some protection, certain parts of the body, such as the extremities, are more prone to dryness, especially when exposed to harsh weather conditions and/or occupations. Therefore, it is essential that you follow a yearlong body skincare program to control dryness, irritation and barrier disruption. Renewal Enriched Body Lotion works by providing the necessary support your skin needs to achieve optimum function, thus restoring its healthy and youthful glow.

How does it work?

Renewal Enriched Body Lotion contains a combination of both EpiA Complex™ and EpiB Complex™ in a synergistic formulation specific for non-facial skin that:

- Blocks the action and formation of chronic inflammatory factors, which lead to the development of visible signs of skin aging.
- Repairs and strengthens the skin's natural protective barrier, our primary defense against environmental aggressors that damage the skin and accelerate the aging process.
- Is specifically formulated to address the needs of the body, making skin healthier and stronger in exposed areas.

Ingredients

Water (Aqua), Butylene Glycol, Glycerin, Petrolatum, PPG-2 Myristyl Ether Propionate, Carthamus Tinctorius (Safflower) Seed Oil, Dimethicone, Hydrogenated Polyisobutene, Limnanthes Alba (Meadowfoam) Seed Oil, C14-22 Alcohols, C12-20 Alkyl Glucoside, C10-30 Cholesterol/Lanosterol Esters, Linum Usitatissimum (Linseed) Seed Oil, Glyceryl Stearate, PEG-100 Stearate, Acrylates/C10-30 Alkyl Acrylate Crosspolymer, Beeswax, Bisabolol, C13-14 Isoparaffin, Caprylyl Glycol, Citrus Aurantium Dulcis (Orange) Fruit Extract, Ethylhexylglycerin, Hexylene Glycol, Laureth-7, Lavandula Angustifolia (Lavender) Flower Extract, Linalool, Limonene, Magnesium Salicylate, Magnesium Stearate, Malic Acid, Manganese Glycerophosphate, Persea Gratissima (Avocado) Oil Unsaponifiables, Phenoxyethanol, Phoenix Dactylifera (Date) Fruit Extract, Phytosphingosine, Polyacrylamide, Pyrus Malus (Apple) Fruit Extract, Rosa Canina Fruit Oil, Sodium Hyaluronate, Sodium Hydroxide, Zinc Pyrithione, Zinc Stearate. Patent Pending. All Rights Reserved.

Phase 04 – Renew & Fortify

Extreme Barrier Cream

- **Recommended for all skin types (specifically dry skin)**
- **Fragrance-free & non-comedogenic / Paraben-free**
- **Maximally hydrates extremely dry skin on the body including the hands, feet, knees, elbows, and lower legs, while enhancing the barrier repair and fortification process**
- **Retail Size: 180 g. (6.3 oz.)**
- **Professional Series: 453 g. (16 oz.)**

Product Description

Certain parts of the body are particularly prone to dryness and scaling, resulting in protective barrier disruption and the development and exacerbation of common skin disorders such as psoriasis, eczema and dermatitis. Any injury or skin procedure (including chemical peels, laser resurfacing, and microdermabrasion) that compromises the integrity of the natural protective barrier or removes the stratum corneum, the first layer of your skin, will severely disrupt barrier function, leaving your skin especially vulnerable to environmental insults. Using Epionce Extreme Barrier Cream following these procedures will significantly reduce healing time and protect the exposed skin. Any dry or damaged area needs the supreme protection of Extreme Barrier Cream, the ultimate barrier-closing product.

How does it work?

Extreme Barrier Cream, like all of the Renewal products, goes well beyond providing a moisturizing effect; it is specifically designed to repair and strengthen the skin's natural protective barrier of dry and/or damaged skin on the hands, feet, knees, elbows, and lower legs. It also reduces the damaging effects caused by inflammatory factors, helping to reduce the symptoms of inflammatory skin conditions such as psoriasis and dermatitis.

Extreme Barrier Cream contains a combination of both EpiA Complex™ and EpiB Complex™ in a synergistic formulation that:

- Blocks the action and formation of chronic inflammatory factors, which contribute to the development and exacerbation of common skin conditions.
- Repairs and strengthens the skin's natural protective barrier, our natural defense against environmental aggressors that damage and irritate the skin.
- Promotes and enhances the healing process for irritated, damaged, or newly-exposed vulnerable skin following procedures such as chemical peels, laser resurfacing or microdermabrasion.

Ingredients

Water (Aqua), Glycerin, Petrolatum, Butylene Glycol, PPG-2 Myristyl Ether Propionate, Carthamus Tinctorius (Safflower) Seed Oil, Limnanthes Alba (Meadowfoam) Seed Oil, Hydrogenated Polyisobutene, Cyclopentasiloxane, Cetearyl Alcohol, Cetearyl Glucoside, C10-30 Cholesterol/Lanosterol Esters, Linum Usitatissimum (Linseed) Seed Oil, Cyclohexasiloxane, Acrylates/C10-30 Alkyl Acrylate Crosspolymer, Beeswax, Bisabolol, Caprylyl Glycol, Cetyl Alcohol, Citrus Aurantium Dulcis (Orange) Fruit Extract, Cyclomethicone, Dimethiconol, Disodium EDTA, Ethylhexylglycerin, Glyceryl Stearate, Hexylene Glycol, Lavandula Angustifolia (Lavender) Flower Extract, Linalool, Limonene, Magnesium Salicylate, Magnesium Stearate, Manganese Glycerophosphate, PEG-100 Stearate, Persea Gratissima (Avocado) Oil Unsaponifiables, Phenoxethanol, Phoenix Dactylifera (Date) Fruit Extract, Phytosphingosine, Pyrus Malus (Apple) Fruit Extract, Rosa Canina Fruit Oil, Sodium Hyaluronate, Sodium Hydroxide, Zinc Pyrithione, Zinc Stearate. Patent Pending. All Rights Reserved.

Phase 04 – Renew & Fortify

Medical Barrier Cream

- **Designed to optimally hydrate dry, scaly and rough skin; post-procedure treatment**
- **Fragrance-free, non-comedogenic / Paraben-free**
- **Maximally enhances repair of a compromised stratum corneum while stimulating healing of a damaged epithelium, specifically after destructive procedures such as laser skin resurfacing, chemical peels and microdermabrasion**
- **Retail Size: 230 g. (8.0 oz.)**
- **Professional Series: 453 g. (16 oz.)**

Product Description

Medical Barrier Cream is an emollient protective cream designed as an effective treatment for many scaly cutaneous diseases characterized by incompetent barrier permeability and resistance to standard moisturizers. It is formulated specifically for the most sensitive skin and does not contain any of the topical sensitizers and preservatives found in standard moisturizers that may cause reactions in patients with extremely atopic skin. Medical Barrier Cream is also recommended as the ideal therapy for use immediately following disruptive procedures such as laser resurfacing, chemical peels and microdermabrasion. It is also indicated for use in helping to relieve the symptoms of erosive conditions, burns, and abrasions.

How does it work?

This breakthrough formulation contains proprietary botanical-derived precursors to supplement the key barrier lipids and stimulators of the barrier repair processes. It contains the highest concentration of EpiB Complex™ to maximally enhance the repair of a compromised stratum corneum while stimulating healing of a damaged epithelium.

Medical Barrier Cream contains a combination of both EpiA Complex™ and a fortified, maximum-strength EpiB Complex™ in a synergistic formulation that:

- Blocks inflammatory factors, which contribute to the development and exacerbation of scaly skin conditions such as atopic dermatitis.
- Actively rebuilds and strengthens the protective skin barrier of patients with incompetent barrier function.
- Promotes and enhances the healing process for irritated, damaged, or newly-exposed vulnerable skin following procedures such as chemical peels, laser resurfacing, or micro-dermabrasion.
- Does not contain essential oil extracts, parabens, or other preservatives that may cause skin irritation in people with very atopic skin.

Ingredients

Water (Aqua), Petrolatum, Glycerin, Butylene Glycol, Carthamus Tinctorius (Safflower) Seed Oil, Limnanthes Alba (Meadowfoam) Seed Oil, Hydrogenated Polyisobutene, PPG-2 Myristyl Ether Propionate, Cyclopentasiloxane, Cetearyl Alcohol, Cetearyl Glucoside, C10-30 Cholesterol/ Lanosterol Esters, Cyclohexasiloxane, Ammonium Acrylodimethyltaurate/VP Copolymer, Beeswax, Bisabolol, Caprylyl Glycol, Cetyl Alcohol, Cyclomethicone, Dimethiconol, Disodium EDTA, Ethylhexylglycerin, Glyceryl Stearate, Hexylene Glycol, Magnesium Stearate, Manganese Glycerophosphate, PEG-100 Stearate, Persea Gratissima (Avocado) Oil Unsaponifiables, Phenoxyethanol, Phytosphingosine, Rosa Canina Fruit Oil, Sodium Hyaluronate, Zinc Pyrithione, Zinc Stearate. Patent Pending. All Rights Reserved.

Phase 05 – Renew & Fortify

Active Shield Lotion SPF 30+

- **Suitable for all skin types**
- **Fragrance-free & non-comedogenic / Paraben-free**
- **Non-sensitizing ingredients, including micronized zinc oxide, provide optimal photo protection during extended outdoor activities**
- **Blocks UVA/UVB sunlight year-round, providing effective broad-spectrum sun protection**
- **Retail Size: 90 ml. (2.5 fl. oz.)**
- **Professional Series: 453 ml. (16 fl. oz.)**

Product Description

Repeated sun exposure accelerates the skin aging process and increases the risk of developing skin cancer, which affects over a million of people in the United States every year. Regular daily use of Active Shield Lotion SPF 30+ helps prevent skin damage caused by UV radiation while reducing the risk of cancer, without the potential to develop irritation commonly triggered by certain sunscreen ingredients. Active Shield Lotion SPF 30+ has certain water-resistant properties that may help prevent it from running off the skin during moderate, outdoor activities. In all cases, it is highly recommended that any sunscreen product be re-applied, as often as needed, to achieve continual protection from UV damage.

How does it work?

Active Shield Lotion SPF 30+ contains non-sensitizing, non-irritating micronized zinc oxide that act as effective blockers of harmful UVA and UVB rays, both responsible for sunburn, visible signs of extrinsic skin aging and different forms of skin cancer. This light, sheer sunscreen lotion provides optimal sun blocking efficacy, even during outdoor activities, while achieving the most elegant aesthetics qualities.

Increasingly, sunscreens have evolved from products designed primarily for sunburn prevention to products intended to not only achieve this objective, but also to prevent the development of signs of extrinsic skin aging, premalignant tumors and skin cancer. Clinical studies have documented SPF 29 or greater significantly reduces the development of premalignant keratoses, incidence of skin cancers and other photosensitive conditions.

Ingredients

Homosalate: 10.0%
Zinc Oxide: 9.2%
Octisalate: 5.0%

Other Ingredients: Water (Aqua), C12-15 Alkyl Benzoate, Butylene Glycol, Glycerin, Steareth-21, Phenyl Trimethicone, Limnanthes Alba (Meadowfoam) Seed Oil, Cetearyl Alcohol, Carthamus Tinctorius (Safflower) Seed Oil, Ammonium Acryloyldimethyltaurate/VP Copolymer, Caprylyl Glycol, Ethylhexylglycerin, Hexylene Glycol, Linum Usitatissimum (Linseed) Seed Oil, Malic Acid, Phenoxyethanol, Phoenix Dactylifera (Date) Fruit Extract, Polyhydroxystearic Acid, Steareth-2, Triethoxycaprylylsilane, Zinc Pyrithione.
