May 12, 2010

BOISE, Idaho – Episciences, Inc., the Boise-based developer and manufacturer of the Epionce brand of cosmeceutical and non-prescription dermatological products, recently was awarded a prestigious Export Achievement Certificate by the U.S. Department of Commerce. Episciences was one of only three companies in the state of Idaho to receive the honor this year.

Created to recognize small- and medium-sized enterprises and organizations have successfully entered the international marketplace for the first time or that have successfully entered a new market the award recognizes a company's exceptional export achievements in partnership with the Department of Commerce's U.S. Commercial Service.

Episciences distributes Epionce products throughout the United States, the United Kingdom and Japan. In 2010 alone, it has expanded its reach into Poland and into the booming Chinese market through the opening of The Hermitage by Epionce Spa in Hong Kong's trendy Central District.

For more information about the Epionce line of products, visit epionce.com.
